## DETAILED ACTION

### *Allowable Subject Matter*

1. The following is an examiner's statement of reasons for allowance: the claims recite a first stanchion and second stanchion are located on a rear portion of a vehicle trailer and on a right and left portion of the vehicle trailer, the first and second stanchion extending upwardly from the vehicle trailer, a first and second electrical light that is present within a housing, the housing having a rear concave and colored lens on a rear thereof and having a front concave and colored lens on a front thereof, whereby light that is emitted by the first and second electrical light is visible through the rear concave and colored lens and is visible through the front concave and colored lens, and wherein the housing is mounted on the stanchion and the front concave and colored lens is viewable from a driver's seat of a towing vehicle.

Logan (USPN 3,683,842) teaches warning light connected to the vehicle electrical system, where the light housing is mounted by bracket(s). Logan suggests the warning light (32) is conventional in construction and may be of any type conventionally known in the art (column 2, lines 15-35) and the warning light (32) will be visible in all directions by approaching traffic.

Because none of the references disclosed the detailed warning light housing having a light source, a front and rear concave and colored lens. Whereby light that is emitted by the light is visible through the front and rear concave and colored lens, combined with vehicle trailer, light housing located on a stanchion on rear left & right portion of the vehicle trailer, where the front concave and colored lens is viewable from a driver's seat of a towing vehicle, nor is there any motivation to combine them, the claims are deemed patentable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Amendment***

2. Examiner acknowledges that the applicant has amended claim 1 and newly added claims 5-13.

### ***Response to Arguments***

3. Applicant's arguments, see pages 7-12, filed 7/11/2005, with respect to claims 1 & 3 have been fully considered and are persuasive. The 35 U.S.C. 103 rejection(s) of 4/6/2005 has been withdrawn.

### ***Conclusion***

Art Unit: 2875

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Capps (USPN 4,715,768) – boat trailer guide

Valdez (Des. 351,115) – combined guide and indicator signal light for attachment to a towing boat trailer

M. Frascadore et al. (USPN 1,498,088) – signal and parking lamp
